

**AUTOMATION**

## Level 1 & 2 Sensors

This seminar is set up in an open-learning environment. Do you have a difficult sensor application that you need help with? Bring it with you and we'll work through the best solution to fit your needs.

### **LEVEL 1**

**Thursday, April 13**

Attendees will learn the differences between inductive and capacitive proximity switches, as well as the basic sensing modes of photoelectrics.

### **LEVEL 2**

**Friday, April 14**

Covering the advanced usage of items such as lasers, ultrasonic analog, background/foreground suppression; each attendee will take that next step in knowledge application of proximity switches and photoelectrics.

**Thursday, April 13 -  
Friday, April 14**

**9 AM - 5 PM**

**SMC Sedalia  
1616 W Main St  
Sedalia, MO 65301**

### **Cost**

**1 Day: \$625**

**2 Day: \$950**

**Includes Lunch**
