LEVEL 1 & 2 SENSORS

TRAINING EVENT

Do you or your employees need to expand your knowledge of sensors?

Register for SMC's Level 1 & 2 Sensors course to learn about basic and advanced sensors and take the first step in knowledge application.

This seminar is set up in an open-learning environment. Do you have a difficult sensor application that you need help with? Bring it with you and we'll work through the best solution to fit your needs.

LEVEL 1 (DAY 1)

Attendees will learn the differences between inductive and capacitive proximity switches, as well as the basic sensing modes of photoelectrics.

LEVEL 2 (DAY 2)

Covering the advanced usage of items such as lasers, ultrasonic analog, background/foreground suppression, each attendee will take that next step in knowledge application of proximity switches and photoelectrics.

+ HANDS-ON

Throughout this course, you will have the opportunity to practice the skills you have learned through a variety of hands-on exercises.

COST

\$500 per day
\$850 for both
Includes Lunch Each Day

REGISTER

To register, contact Erica Masterson at emasterson@smcelectric.com by January 24, 2022.
