FALL PROTECTION BASIC AWARENESS

OSHA requires that the employer shall provide a training program for each employee who might be exposed to fall hazards. The program shall enable each employee to recognize the hazards of falling and shall train each employee in the procedures to be followed in order to minimize these hazards.

This class fulfills these OSHA requirements and trains anyone working from a height greater than four (4) feet on fall protection basics. Each student will receive a certificate to satisfy OSHA annual awareness training.

COST

\$75
per student

REGISTER

To register, contact Ashli Anderson at
aanderson@smcelectric.com by Wednesday, September 8th.

COURSE SCHEDULE:

Fall Hazard Recognition

- Fall Prevention: Elimination of the fall hazard
